

European

up to £150,000 cash rating (Grades II – VI)

Model above is
Size 160

With banks handling high levels of cash, there is a clear need for safes of the highest specification. The European safe from Rosengrens is one such safe. Constructed from modern materials, this graded cash safe successfully integrates a wide range of key features. Examples of these include a £150,000 cash rating, 60 minutes fire protection, European standard certification and high-security locking. The European can also be customised with a range of locking and fitting options. Such flexibility and overall quality illustrate why the European is the most comprehensive cash safe from Rosengrens...

Burglary protection: The European is tested and certified by the ECBS to European standard EN 1143-1.

Fire protection: The European safes are also tested and certified according to LPCB in fire-class 60P for paper; which means that the safes will withstand a fire for 60 minutes.

Locks: All models are secured by Rosengrens resettable RKL-10 key lock as standard, which has more than 90 million key variation possibilities. The safe can also be equipped with combination lock or electronic lock as options.

Design: The European is attractively finished in off-white and blends in well in both modern and classic surroundings. All the European safes are prepared for floor anchoring.

Quality and environmental management systems: The European series are all manufactured in accordance with the ISO 9001 quality management system and the ISO 14001 environmental management system.

Rosengrens Product Guidelines: The construction of the European has been tested and approved to the Rosengrens Product Guidelines which are based on all relevant European norms. The aim is to verify the user friendliness, safety and product lifetime, thereby assuring customers that our products live up to the highest expectations.
