

Sargasso

up to 120 minutes document protection

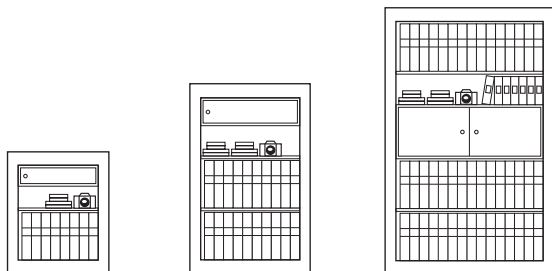

Model above is
P177

Protecting client information in the correct medium is essential for ensuring a company's future. Safes or cabinets must provide adequate fire and burglary resistance. One possible solution is the Sargasso cabinet from Rosengrens. Confirmed as the optimum in document protection, the Sargasso offers 120 minutes fire protection, European standard certification and high-security locking. Product flexibility is illustrated by a wide range of customisation options (e.g. shelf, cupboard and file-frame). With so many advantages its no surprise the Sargasso has rapidly grown in popularity...

Fire protection: Rosengrens Sargasso is tested and certified by ECBS to European standard EN 1047-1 Class 60P and 120P, which means that the cabinets will withstand a fire for 60 or 120 minutes. In addition the datamedia insert is tested and certified according to the same European norm to class 60DIS.

Locks: As standard the Sargasso range is fitted with Rosengrens resettable RKL-10 key lock, which has more than 90 million variation possibilities. Alternative locking includes electronic or dual locking options.

Design: With the functional and ergonomic design and the colour in off-white, the cabinets blend in well in most environments.

Quality and environmental management systems: Rosengrens Sargasso cabinets are all manufactured in accordance with the ISO 9001 quality management system and the ISO 14001 environmental management system.

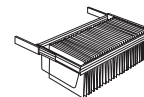

Rosengrens Product Guidelines: The construction of Sargasso has been tested and approved to the Rosengrens Product Guidelines which are based on all relevant European norms. The aim is to verify the user friendliness, safety and product lifetime, thereby assuring customers that our products live up to the highest expectations.
